How can you use the Euromob Tool in order to get your skills evaluated?

-----  
Euromob website and Social Media surpass expectations

-----  
Euromob Tool Video Guides and User Guides are online!

## EUROMOB PROJECT BEING DISSEMINATED ACROSS EUROPE

The Euromob project is being disseminated across the geographical canvas of Europe with partners now implementing Multiplier Events in physical and online form.

So far, partners from Spain (CAMARA and SPAIN INTERNSHIP), Greece (ECTE) and France (SAYNOVA) have implemented theirs with great participation while other partners are in the process of arranging theirs before the end of the project.

Co-funded by the  
Erasmus+ Programme  
of the European Union

# HOW CAN YOU USE THE EUROMOB TOOL IN ORDER TO GET YOUR SKILLS EVALUATED?

The project has been already published in the following website <https://euromob.eu/> but now you need to use it. How should you do it? Here we provide you a small guide of what to do.

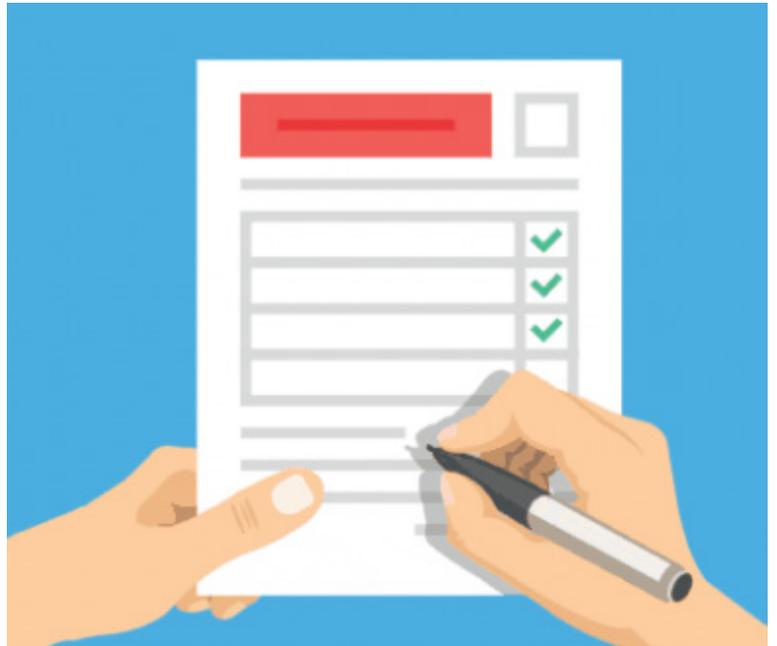

If you are a student, you will need to follow a process like the following one:

## STEPS

- 1.** We begin with the student creating an internship and the validation of the internship agreement by the university
- 2.** The educational institution also validates the skills and abilities of the candidate.
- 3.** Once students go to this step and click on the company assessment, the company will get the link to work with the assessment.
- 4.** At that time, you would receive an email with a link, click the link sent to get started.
- 5.** Begin the assessment. You can rate from 1 to 4.
- 6.** A validation message will appear at the top of the assessment.
- 7.** After this, the student will be able to evaluate himself.
- 8.** Process completed! The student may have a summary and certificate.
- 9.** In this link you can download the certificate.

You can watch a full video here: <https://www.youtube.com/watch?v=bvSKy-3hc9A>

After this, you will be able to have the certificate of your skills development, thanks to this tool.

# EUROMOB TOOL VIDEO GUIDES AND USER GUIDES ARE ONLINE!

IO3, under the supervision of Chamber of Commerce Camara and in collaboration with all partners, entailed that User Guides and Video Guides would be made aiming at enhancing teachers, learners and employers capacity to deploy the proposed online tool for skills recognition during a mobility programme in Europe.

All partners worked diligently and compiled the user guides and the video guides in all languages. You can find them via the project's website at [euromob.eu](http://euromob.eu)

## EUROMOB WEBSITE AND SOCIAL MEDIA SURPASS EXPECTATIONS

The website impact exceeded the forecast numbers in the Dissemination Plan. The initial numbers forecast was that the visits to the website would be more than 1000 whereas the numbers exported from the project website showed that the number of visits and hits on the website is 3.790!

The same goes for the Social Media insights. The numbers concerning social media impact far exceeded the expectations of the consortium and outnumbered greatly the indicators forecast in the Dissemination Plan. The final numbers of social media post views are 19.824, with the forecast being 10.000.
